

## Incident Diary

Your name

Your address

Perpetrator's name (if known)

Address

To address your concerns we need accurate information about what you saw and heard. This will help us to decide the best course of action.

Inside this booklet you will find a box for every day, over the next fourteen days for you to record this information. **If you need any help, let us know.**

For every day, describe what you witness, not what someone tells you about. Write down exactly what you hear, even if it means using foul language. Fill in the form on the day, soon after the event, noting the time.

Tell us how it affected you. Did it stop you doing something? How did you feel? Note the names of any other witnesses or crime reference numbers if you have to call the Police.

On days when there are no problems, mark that it was a good day.

[Add in strap lines about languages / formats]

Date and time:  
GOOD DAY / OK / BAD DAY

I saw and heard,	It made me feel,
